TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), HTML, CSS

Frameworks & Libraries: Next.js, React, Node.js, LangChain

AI & Cloud Technologies: Generative AI, Google Gemini API, Retrieval-Augmented Generation (RAG), Vector Databases (Pinecone), Firebase (Firestore/Realtime Database)

Developer Tools & Platforms: Git, GitHub, Vercel, Stripe API, Clerk (User Authentication)

TECHNICAL PROJECTS

CarVerdict (<https://github.com/SufiyanRauf/CarVerdict>) | June 2026 - July 2026 · Deployed on Vercel

- Built a full-stack Next.js RAG app that tells you what commonly goes wrong with a specific car, using real NHTSA owner complaints
- Embedded the complaints into Pinecone with Gemini embeddings and retrieved the closest matches to ground and cite each answer

AI Interview Prep Assistant (<https://github.com/SufiyanRauf/AI-Interview-Prep-Assistant>) | July 2025 - Aug 2025 ·

Deployed on Vercel

- Built a Next.js chatbot for technical-interview practice that streams answers token-by-token from the Gemini API
- Added a RAG layer (Gemini embeddings + Pinecone) to embed a knowledge base and retrieve the top 3 matches per query

SparkCards: AI Flashcard SaaS (<https://github.com/SufiyanRauf/Flashcard-SAAS-Project>) | July 2025 - Aug 2025 ·

Deployed on Vercel

- Built a flashcard SaaS in Next.js that turns pasted notes into a 10-card deck via the Gemini API
- Wired Clerk for auth, Firestore for per-user decks, and Stripe Checkout for the \$5/mo Pro plan

Multimodal AI Pantry & Recipe Generator (<https://github.com/SufiyanRauf/Pantry-Tracker-Project>) | July 2025 - Aug 2025 · Deployed on Vercel

- Built a pantry tracker (Next.js + Firestore) where users add items by typing or by photo
- Used Gemini's vision model to identify the food item in an uploaded photo and log it automatically

EDUCATION

California State University, Fullerton | Expected Graduation: May 2028

M.S. in Computer Science — Conditionally Admitted (Foundational Pathway)

Completing foundational CS prerequisite coursework; begin core graduate curriculum Spring 2027.

CodePath — Technical Training | Completed August 2026

Foundations of AI Engineering (Python, agentic workflows, pytest), 2026. Technical Interview Prep (data structures, algorithms), Cybersecurity, 2025.

California State University, Long Beach | Graduated December 2020

Major: Bachelor of Science in General Biology | Honors: Magna Cum Laude, President's Honor List

EXPERIENCE

Kaiser Permanente, Anaheim, CA | **COPE Health Scholar** | Nov 2020- Feb 2022

- Coordinated with nurses, physicians, and specialists across hospital units to keep patient care on track.
- Rotated into a new unit every 90 days, learning each team's protocols and workflows from scratch.

CSULB, Long Beach, CA | **Undergraduate Research Assistant** | Aug 2017 - Dec 2020

- Debugged multi-step experimental protocols, isolating variables until results came out reproducible.
- Ran concurrent long-term research projects from hypothesis through conclusion.
